DETAILED ACTION

Response to Amendment

Examiner acknowledges response by applicant's representative received 7/22/05. Examiner further acknowledges the corrections/clarifications made to address the issues of the first action.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance: Patentability has been found because the prior art fails to suggest or show the combination as set forth in the independent claims 1 & 6 including making a payout to a player in accordance with a second poker hand with two different tables and a final payout based on a payable used for the first credit as well as the rank of the second and final hand. These requirements are not seen or fairly suggested by the prior art of record.

The closest prior art of reference was Moody et al. (959). Moody's teachings fail to anticipate or render obvious applicant's invention because it does not disclose payout resolutions based on the same/similar principle.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and are cited to show the state of art with respect to features of the claimed invention.
